## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1, 5, 9 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Application No. 2003/0002642 (Jorasch et al.).

With respect to claims 1, 5 and 9, note Figs., Paragraphs 0043 – 0045, 0054 – 0058, 0060 – 0065 and 0098 – 0111. Note also the claims.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 – 4, 6 – 8 and 10 – 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jorasch et al.

Jorasch et al. teach the claimed device except the added/deleted devices aspect. However, such would be obvious to one of ordinary skill in the art to have such

status information in the Jorasch et al. method and system (if it is not already implicit, note Fig. 7A.

***Response to Arguments***

Applicant's arguments with respect to claims 1 - 12 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

U.S. Patent No. 6,618,476 (Szeto et al.) – note Abstract; and

U.S. Patent No. 4,972,453 (Daniel, III et al.) – note Abstract.
